Many of the songs have found their way into worship services across North America and are performed by other singers and musicians. Once you have welcomed this CD into your home- you will find yourself returning to it again and again for inspiration and introspection, to move and dance, and celebrate the passages of life! CD 1, follows the traditional matbeah (deep structure) of the Friday night Sabbath service. Weaving traditional prayers, melodies, and words with new interpretations of each, I offer a blending of the old and the new, composed by myself and by colleagues between 1994 and 2006. This CD has been recorded as a spiritual journey- one that could focus particular prayers for specific times, or be listened to in its entirety on your own or in a group for a complete experiential entry into the Sabbath. CD 2- The 15 pieces on this CD were from original recordings that my grandfather and I made in the early 1990s and digitally enhanced. Except for light percussion, guitar and violin added on some selections, the vocals are live and as they were originally captured. Most of these songs are traditionally sung on Friday night or Saturday afternoon.
