Main Frame, D-Truth, Virt-2-ous and Live Wire have took their fusion of hip hop, gospel and Soul to a whole new level, along with an ability to bring a message that's moving yet keeps your head nodding. A lot of the diversity in thier dielivery comes from thier diversity in musical background with everything from rap to rock country to quartet, from Shirley Caesar to Crossmovent, from Third Day to the Canton Spirituals Taxi one of the leading A&R firms in the industry had this to say about "Down Here" one of the tracks from Suviva Tacktickz A great way of ministering to young people. You convey important messages in a contemporary sound and style they'll be able to identify with. Nice job on the track a beat that makes your head nod with interesting arrangement on top. You have strong memorable melodies in the hook and the flows are tight in the verses good cadence's &delivery. the combination of male &female voices, singing &rap works nicely. Well, put together. Overall, a solid radio friendly, current sounding song with a broad appeal (east, west, Midwest, down south) Keep up the good work &all the best with the project the Soul Suvivaz plan on taking ministry to the streets in 06' for booking information etc. email us [suvivaz@soulsuvivaz.com](mailto:suvivaz@soulsuvivaz.com), or visit [soulsuvivaz.com](http://soulsuvivaz.com), promotional info contact [rcimusicpromtion.com](http://rcimusicpromtion.com)
