This isn't your typical, airy, mystical Celtic album. It's Celtic-Rock. Full on rock band backing up the highland bagpipe. 11 MP3 Songs WORLD: Celtic, ROCK: Instrumental Rock Details: With the demise of Whisky Before Breakfast in November of 1999 a void was left in the lives of Aron Garceau and Iain Mac Harg. So many tunes, so many things left unsaid, arrangements that would never see the light of day. There was business left to attend to and there was really only one thing left to do; build from the ashes. Like a rising phoenix comes Prydein. Now teamed up with Andy Smith, Hazen Metro and Andrew Adams, Iain and Aron are taking care of a little Unfinished Business. From folk rock to 80's rock, it's all Celtic Rock when it's mixed with the sound of the Scottish Bagpipe. Original arrangements and old tunes form a new music and it never sounded so good
