

Mp3 Mike Bell - Background Music For Video/ Photo Slideshows

[DOWNLOAD HERE](#)

All styles of music for multimedia production 25 MP3 Songs EASY LISTENING: Background Music, ELECTRONIC: Virtual Orchestra Details: Two volumes of background music for video photo slideshows. Stop trying to think of some great song from the past that might work for musical background during your video/ photo slide show. These songs are composed specifically for your slide show so that all you have to do is match the song to your picture. A day on the beach, baby pictures, trip to Mexico, Christmas or wedding... Its all there. These compositions will save you hours and hours of time and will make you look like a professional media producer. Remember these songs are created specifically for slideshow production. All you have to do is plug in the song that matches your pictures on the screen. If you listen closely to professional documentary background music on TV, you will hear the music change during each new scene. There might be many different compositions during a five minute presentation. With these two Cds, youll be able to add background music like the pros on TV. Fast, easy and professional. Youre sure to use this music over and over again. Stop wasting your valuable time listening to music youll never use. Use that time instead to share your professional slideshow or video production with family and friends. Graduation, kids playing, party time, sports, old photographs, industrial, and even a Disney vacation.... Weve got the perfect music for every scene.
