original benga 8 MP3 Songs WORLD: African- East Details: Yet more time tested songs that made the late George Ramogi one of the "benga" kings. George is believed to have been the real force behind benga as a genre. Paul Orwa, Jim Likembe and George Kembo were part of George Ramogi's band when it recorded the hits included in this album. Once again, this project called for their participation as we sought to preserve George's memorable songs and his legacy overall. The tracks were especially picked by Jojo Records and Equator Heritage Sounds. If you were a true Ramogi fan, then this is for you.
