Powerful epic sounding art-rock, considered by many to be a classic and one of the best examples of symphonic rock ever recorded. 7 MP3 Songs ROCK: Classic Rock, ROCK: Space Rock Details: Jimmy Hotz - Beyond the Crystal Sea - Review by Ken Scott "Ask any in-the-know collector about the best Christian progressive art rock album and the answer is usually as toss up between Arkangels Warrior and this one. Beyond The Crystal Sea is the heavier and spacier of the two, plastered with what seems like layer upon layer of synthesizers. March Of The Dead Souls pins your ears to the wall from the start with its hard space rock barrage and eerie banshee choirs. Hotzs layered hard rock guitar is absolutely venomous on Hand Of The Most High and the instrumental Teton, while Vision Ships, Beyond The Blues, and From Love Life Did Begin are more reminiscent of the melodic lavish textures of Yes (though vocally Hotz brings to mind Peter Gabriel of early Genesis). Kemper Crabb is in here playing recorder on Alpine Magic. The production quality is superb as is the fantasy cover art. If youve got a good stereo youre gonna wanna blast this up loud. Its out of this world!" (Ken Scott - Archivist) ***** Jimmy Hotz has worked with many famous artists over the years including: Fleetwood Mac, NSYNC, MOBIUS8, B.B. A. MARCH OF THE DEAD SOULS B. HAND OF THE MOST HIGH OBSERVATIONS OF A LARGER
REALITY In the stillness of the morning I hear the weakened cries Of those who march as dead souls To
bring more pain and strife They seem to be the victors But they only know defeat As they march against
the Mighty King Whos called the Prince of Peace Stand all you children Be not frightened by their cries
Dont let your souls be touched By the madness in their eyes (Angelic Interlude) Across the field of battle
You will see the darkened eyes Of him who is called Satan, The father of all lies The Devil has been
wounded And in torment he will be For though he mends his body His soul can find no peace Stand all
you children Be not frightened by his cries Dont let your souls be touched By the madness in his eyes
(Angelic Interlude) II. NIGHT PASSAGE III. THE VISION SHIP THE VISION SHIP Sail on winged ships
To shores that unfold To lands that lie Beyond the Crystal Sea Board the Vision Ship And let your worries
go Far away Rest my weary neighbor With dreams in your heart Sing of far and distant lands Board the
Vision Ship And let your worries go Then spread your love wings and fly Spread your love wings and fly
Lifes Magic Queen does lift her head And then begins to speak Words of truth to carry us Beyond the
Crystal Sea The darkness of the night Does dress her hair with stars To light the way for lonely sailors
Drifting from afar Whove come to know the light Theyve come to know the light So, when it seems that
your journey Is far from its end And your hope has all gone away If your heart is burning For the joy it
once knew Well, my friend Theres still hope for you You just board the Vision Ship And let your worries

go Then spread your love wings and fly Spread your love wings and fly IV. TETON V. BEYOND THE
BLUES BEYOND THE BLUES The brightness of the mornings got a hold on me And I see everything just
like new I can tell by the flicker and the gleam in your eye That the brightness got a hold on you We are
but as children sleeping Lying in the dew Waking with each ray of sunlight To a road that leads beyond
the blues Listen to the softness of the flowers as they sing A song of joy and peace The colors of the
mountains And the coolness of the streams All seem to flow into me We are but as children sleeping
Lying in the dew Waking with each ray of sunlight To a road that leads beyond the blues As we look
above us let our hearts sing out With praise for all we see And look unto the hills as we call upon God
And pray for our brothers in need For they are but as children sleeping Lying in the dew Waking with each
ray of sunlight To a road that leads beyond the blues VI. ALPINE MAGIC VII. FROM LOVE LIFE DID
BEGIN FROM LOVE LIFE DID BEGIN Its time I be going He says as he starts to ascend To far away
places Where the magic of life did begin Well Im off with the wind To prepare us a place Far from the
reaches Of this time and space Where life from love did begin From love life did begin Remember to
share all the life I have shown you within For the souls of the sleeping Are ready to be born again Well Im
off with the wind To prepare us a place Far from the reaches Of this time and space Where life from love
did begin From love life did begin For those who believe In magic lands Ive seen them and its true That
the things we find In our hopes and our dreams Are real for me and you But it seems this world May
never see The land where life began From - Love
