Glitch Gumbo Vol 1 is Atypical Audio's first Pro Audio loop pack. It features 66 high-end electronic percussion loops. If you are into breaks, IDM, techno, electro, mutant hip hop or any other forward looking electronic music style, this library is for you. This library was designed from the ground by sound designer and electronic music producer Peter Van Hoesen, using high-end audio software such as Max/MSP, Reaktor and Logic. The emphasis is on experimental beats, while retaining the necessary dose of funk and groove. All loops are professionally mastered, ready for inclusion in your own musical adventures. Glitch Gumbo Vol 1 is available at the introductory price of 10.99 USD. It comes as a download pack in Apple Loops format. This way you can immediately use the loops in Garageband, Logic, Ableton Live, Digital Performer and and all other DAW prgrams that support the Aif file format.. Start messsin'!

Features: * 66 loops in Apple loops format (.aif) * 44.1 Khz / 16 bit high-end CD quality * All loops have convenient bpm info in file name * Instant download after purchase * Royalty free * No shipping costs

Please check the Acid Loops format if you work with Windows and need the Wav format.
