Rockin' guitar and harmonica driven blues/Americana 11 MP3 Songs BLUES: Rockin' Blues, ROCK: Americana Show all album songs: Roadworks Tour Songs Details: yet another adventure down the road of our musical life. this was recorded at Barry's "Running Horse" in nottingham england a great venue for any band. we had just finished a three month tour in europe and we recorded this at the end. we had a great time as usual. we just mixed it and here you have it... we decided not to 'fix it' in the studio with overdubs so there is the human element there. we aren't a pop band and needless to say some nights are better than others and this was the night we recorded...champagne, beer, whiskey, lots of our fans and fun. the band consists of: lightnin'willie-guitar/vocals;giles king-harmonica/vocals; spy-bass/vocals;and sam "squeaky wheels" kelly-drums. these are some of the best guys in the music business... life is short as i am learning and i am proud to work with such stellar musicians if it was over tomorrow i would have no regrets. being a musician you are always learning...i can't play like my heroes nor can they play like us. we thank all those that have come before us without them i don't think we'd have the music we have today. each generation has it's own i'm glad some of the past has prevailed to inspire musicians like us. until the next cd... God Bless us all, Lightnin' Willie
