Coming from a large musical talented family, the birth giant of the late Blues Legend Raful Neal, Patriarch of the Neal Legacy, Tyree Neal continues to represent the Neal Family. Coming from a strong blues background, Tyree Neal is also a writer, producer and performer in the hip-hop, r&b, and rap genre. His most rewarding experiences were as Musical Director, Lead Guitarist and Vocalist for the late legendary Blues Diva, Ms. Jackie Neal. Tyree Neal continues to perfect his talent and dedication to his families musical influence with the release of his 2nd CD titled "All Grown Up". The title is a perfect fit for this multi talented artist. This 2nd CD contains collaborations from guest, Jazzy Records Rap artist "Bro Bro" aka Tyrell Neal, Maple Music Soul/Acoustic artist Syreeta Neal as well as Soul/R&B Legend Sir Charles Jones on the hit single "Whiskey and Beer". The CD also contains with the help of modern technology, a voice cameo appearance by Ms. Jackie Neal on the track "Zydeco". The long awaited 2nd CD is a little over a year behind in it's release due to Tyree Neal's overwhelming producer schedule. This latest release "All Grown Up" will definitely have the "Juke Joint Women" dancin drinkin "Whiskey and Beer" til 3 in the morning and not just on the "Weekend".
