Positive Pop, World, Power Folk. 15 MP3 Songs WORLD: World Fusion, WORLD: Middle East Details:

Shawn Gallaway is a critically acclaimed guitarist, singer-songwriter, artist and performer who creates emotionally charged songs and drawings that invite us on a journey into the soul; his warmly plaintive vocal style, passionately sincere lyrics, vibrant colors and world rhythms reach deep into the restless heart with a plea for healing, self-awareness, forgiveness, acceptance, peace, enlightenment and celebration. Recently Shawn has completed writing and recording his story, a project that includes his words, art, and songs in a multi media experience entitled, I CHOOSE LOVE; as he explains, "Something inside me was yearning to be touched, nurtured and given permission to come alive! I started painting and drumming while recovering from a bout with depression and eventually turned to visual art and rhythm as the means to deepen my exploration of my Self. I activated myself emotionally, placing what I was feeling onto paper and canvas; as the process evolved, my work became more specific, revealing images and grooves that would lead me down another path. My heart came to life before my very own eyes! I could see my vision clearly and as I healed, words and music began to flow freely again...at first a trickle, then a stream, then a waterfall of song. I CHOOSE LOVE is the jewel I called up from within me to share with the world."
