Related styles: NEW AGE: Healing, NEW AGE: Energy Healing People who are interested in Enya Windham Hill Steven Halpern should consider this download. Details: ANIMAL LOVERS AND CAREGIVERS, NOTICE: This is a veterinarian-tested harp therapy CD for soothing and relaxing agitated dogs, cats, horses, birds, and other animals. It really works--calms and comforts pets who must be left alone; frightened or stressed shelter animals; and especially for thunderstorms, trips to the vet, pre- and post-surgery, and DEEP SLEEP. Read animal and human testimonials at harpofhopeor contact Diane with specific questions. PLEASE NOTE: This soundtrack is identical to "HARP OF HOPE" (the "human edition"), BECAUSE... GREAT BACKSTORY! Veterinarians and vet techs discovered that the human version "HARP OF HOPE" was working very effectively for sick and nervous dogs and cats. So this "ANIMAL THERAPY EDITION" soundtrack is identical to "HARP OF HOPE"...but with special ANIMAL THERAPY LINER NOTES about healing animals with music, with pictures of animals who benefit from using the CD. Since the Animal Therapy CD has been making its way into veterinary offices, many humans who are owned by animals have written glowing testimonies to its effectiveness. (Please check out harpofhopefor their letters.) Diane says, "It is not a magic bullet, but for the majority of dogs, cats, horses, even bunnies, for whom it works, it REALLY works. Mammals share many of the brain mechanisms which produce relaxation, calming, and deep sleep. Also, our animal companions take their cues from us--so when you begin to relax, Fido and Fluffy--or at our house, Phantom and Frosty--do the same." We would be grateful if you'd like to share your animal's reactions to the CD at healingharpist@hotmail Diane Schneider, Ph.D., is a researcher and vibration medicine specialist in the Mayo System and elsewhere. See Diane Schneider's "Harp of Hope" page for more on her therapeutic work with humans and animals.
