When the guitars arrived at the venue the GIPSY KINGS immediatly started to make session with our instruments and didnt stop until the beginning of their tv broadcasting. During the show the GIPSY KINGS manager called us and told us that the band loves the sound and the quality of the TIERRA NEGRA guitars. He asked for a meeting with us and the band. ALBUM INFO "PARA TI \_ FLAMENCO NUEVO" "Para ti- Flamenco Nuevo" the second cd of Germanies most succesful guitar duo! This second cd release from TIERRA NEGRA was recorded during August and September 1999. Leo and Raughi spend a couple of weeks in the Camargue, South France, to write the

songs for this album. They both lived in a beautiful villa, builed close to a lake. The villa was so big that the both guitarrists only met in the evening to introduce their new compositions to each other and to jam with the new ideas. The song "le premier pastis" is dedicated to the first evening they spend together on the terrace drinking a glass of pastis, having a typical french dinner and listening to the birds and froggs around them. The song "The Garden" is dedicated to the garden where Leo spend his time playing guitar and composing his songs for this cd. Each song has its own background story rooted in the Camargue. The song "Tapas" was compiled by the famous NARADA label on the new flamenco cd "TABU" To get more information, and to listen to more songs of this album, please feel free to visit our english website: [tierranegra.de](http://tierranegra.de) STANDART PRESS INFO Sensitive, romantic ballads, forceful melodies, virtuoso, rhythmical, fiery flamenco guitar playing characterize the individual style of TIERRA NEGRA.
