RS7000 DRUM REFILL For Propellerheads Software's Reason device NNXT. Did you sell your RS7K and miss the sounds? Or do you just want a mapped, versatile collection of drum and percussion sounds, suitable for almost any genre, to just load into Reason without any hassle? This is the collection for you. It features every preset drum kit of Yamaha's monster workstation / music production center RS-7000, carefully sampled and mapped in the exact same way as in the hardware. With 60+ different kits, featuring 73 samples each, this is a bargain. Note: Like in the RS7000, some samples are occurring in multiple patches. It's not a bug in this release, it's a feature, in order to make it easier for former RM1X / RS7000 users to recreate their tracks.
