

Mp3 Gnarkill Vs. Unkle Matt & The Shitbirdz - Metal: Heavy Metal

[DOWNLOAD HERE](#)

Gnarkill must have picked up the Shitbirdz, went to the Pawn Shop and swapped the keyboards for a Les Paul and Marshall Stacks because a lot of the songs on this record are Heavy as Hell. Dico and the boys are at full velocity on this one. 18 MP3 Songs METAL: Heavy Metal, FOLK: Power-folk Details: 3 years after the debut of the Gnarkill monster, Dico and Bam put the cameras down, Jess, Shitbird and Vose take a break from the CKY tour, buy some microphones, a good chunk of the Yeungling brewery, and a portable studio and lay down some more drunken gems that would make both Liberace and Barbara Streisand jealous. The palette on this one goes from full-on metal to piano jams that sounds more on par with a Las Vegas lounge session at the Stardust. Dico gets crazy with his freestyles all ranging from pirates looking for hidden VHS tape treasures and shitty birthday parties at Granite Run Mall's "Aladdins Castle Arcade" to RakeYohn's horrible fashion sense. Unkle Matt the Shitbirdz also makes his drunken debut on this one as well as lending some knob-twisting skills. Overall, you should go grab a 12 pack, crack open the shrinkwrap on this sucker, put on some headphones and laugh your ass off.
