Attack of Killer Bass is a collection of high quality analogue Bass loops aimed at the Dubstep and Drum and Bass producer. These hot bass loops, are processed with the original analogue sampler the EMU E5000 sampler. To those in the know, this sampler is legendary for its filters, zplanes and reverbs. The Emu sampler is largely responsible for shaping the sound of early dance genres such as Drum and Bass, Breakbeat and Hardcore. The Emu E5000 can be found in the studios of some of the worlds leading producers. Artists associated with using such a sampler include Ed rush and Optical, Goldie and many more. The pack features four tempo folders, 128 bpm for the House and Electro producer, 135 and 140bpm for the Dubstep producer and finally not forgetting the oldskool guys, 175bpm for the Drum and Bass musician. The Bass Loops are all a high quality 24bit format, and have been Acidized making it even easier to sync to whatever tempo you choose.
