Hot Minisite Graphix Package..... Get Professionally Designed, Web2.0 Style Mini Site Templates In HTML, Photoshop And For XSitePro. And To Kick-Start Your Money-Making Mini Sites In A FLASH! Whether you like it or not, people do judge a book by its cover. And people judge a website by its design. I know that when you start a new website project, you want to launch with a good-looking website. You want to be able to win the trust of your website visitors with good, professional design. And I know the problem when it comes to website design. You can get any of those free website templates available on the Internet. But the truth is, they aren't any good. You and I know that. And you can buy a website template from galleries, but they would cost you a bomb. Each website template is no less than \$50. And let's not even get started with a custom design from a professional web designer. I don't think you can get a custom design for less than \$100. Some even charge a minimum of \$500 per design. So the last few weeks, my friends and I put together a collection of 20 mini site templates for you to consider. With these templates, you can be sure that... When you buy any of these templates, you have the rights to use them on any of your websites. Yes, no domain limits. As long as it's your website, you can use these templates.
