Dim the lights and start up the projector, it's time to sit back and take in the deepest, smokiest atmospheres on wax. If you're looking to add a touch of funky cool to your hottest soundtrack, you'll be glad you found this cache of sweeping cinematic moods and swaggering gangster grooves. Prime Loops proudly present this funky up selection of ensembles straight out of the movie studio, with added vintage aroma for your production pleasure. Arriving hot on the heels of the highly acclaimed "Planet of the Orchestra", Jean Baptiste Lacaze brings you these new experimental construction kits, taking inspiration from the effortless grooves of Bill Evans, and the romantic drama of Ennio Morricone. With A-list loops clearly labelled by musical key, ranging from 176 BPM all the way down to an utterly relaxed 62.5 BPM, you're able to conjure up the perfect mood whatever the pace of the action. This comprehensive and truly unforgettable 500MB library is grouped by instrumentation into 11 virtual ensembles, playing 76 different compositions. This gives you more than 380 distinguished instrumental loops destined for infinite possibilities! Pre-formatted as .WAV, Rex2, Refill, Apple Loops, Ableton, and more, for maximum tempo flexibility and a full sampling experience, you are just one step away from the perfect score. What's more, every ensemble is further broken down into individual stems such as piano, bass, brass and guitar, so you can mix and match as much as you need, extending your compositions to fit any length. Combining the sultry sound of the sixties and seventies with the cutting edge synth technology of today, this pack has been lovingly crafted with great respect for Hollywood heritage, by an engineering wizard unafraid to experiment with sophisticated scales, classic instruments, telephone EQs, big basses and vintage compressors. Focussing on retaining the sparkling dynamics of the original sounds while perfecting the saturated ambience of the era, these remarkable loops will shock and surprise you from one emotion to the next, with melody being used sparingly to leave you space to customise the composition to your latest blockbuster. This stunningly diverse selection has more plot twists than a film-noir classic, so there are always sounds here to fit the stories you like to tell. Of course, everything is royalty-free, so you don't need to worry about a private detective waking you up in the middle of the night. Anyone from Sam

Spade to John Shaft would be happy keeping the streets clean with this high-grade sound library as backup, so if Quincy Jones isn't answering your calls, dive into this heavy stash of celluloid-ready arrangements and get cutting! You can find this release in a large number of other Special Formats on our website including: Ableton Live Pack (354mb) Acid Loops (602mb) Akai MPC (801mb) Apple Loops (602mb) FL Studio (602mb) Garageband (602mb) and many, many more! primeloops.com
