In this video series, youll have access to 6 content packed videos that will show you how to really get clicks that convert. Instead of starting at the point where you create your AdWords account and campaign, youre going to learn what is required of you before you jump in only to discover later why you are not getting conversions. Video #1: Understanding Quality Clicks Over Quantity Focusing on clicks that convert is more important than just the concept of getting a high CTR (Click Thru Rate). The problem most beginners face is they are taught to use a keyword tool and just start adding tons and tons of keywords into the AdWords keyword list and Walla, some magical conversions will happen. Wrong! Until you stop shooting at an imaginary bulls eye and entering useless keywords, you will only realize why you are not getting the conversions you want. Video #2: Test Example And Brainstorming In this video, well take a test product example so you can better understand how we are going with this. Understanding what you are promoting will allow you to get into the perspective of what people are typing into the net. Of course youll want to use actual keywords tools to help you with this, but you also want to use your human eye to take out keywords that are just obviously not going to convert. Lastly youll see an example of why the landing page is the last determining factor to whether or not the quality traffic converts or not. Its how you brainstorm ahead of time, how you execute your plan, and where the traffic goes. Plan ahead and you will not be disappointed. Jump in w/o planning and you will be confused. Video #3: Keyword Tools To Help You There are many keyword tools out there that can really help you speed up your keyword finding to save you time. In fact there are probably thousands among thousands of tools out there. Now, its good to use the ones that are readily available to you first and work your way up as you improve, so its not about how many tools you have. Youll learn what tools are available to you that well be using to get started. Video #4: Creating A Google AdWords Account By now you would have been taught through the other videos what you need to understand before you jump in, you can jump in. In this video, well start showing you how to get your account setup. Google makes it easy to create an account quickly.
