Know your exit strategy before you even go on to construct your first website. If the website cannot be automated, is attached to strongly to you as an individual or dependent on the owner, the website CANNOT be sold. This is a classic mistake website builders make and the first step is to avoid that first! Video 2 How to Buy Low and Sell High The fastest way to have a website for sale is to buy one. But if you want to make a profit from it you must know how to buy low before you can sell high. I reveal how I do this 'unfair' exchange with my share of advantageous tactics to reap high profit margins... allowing you to flip websites on a massive scale! Video 3 How to Create Site for Profits Just starting out? Running on a tight budget? No worries! I show you how to create websites from scratch using little cost that is next-to-nothing. This is NOT your "How to build a klutzy website 101" guide. I always talk about the exit strategy, which is to ultimately sell your business (in this case websites). This is how all your websites will be architect from now on - programmed to be sellable and to be sold for big paydays! Video 4 Adding Massive Value to Your Virtual Real Estate Website buyers look for a few key criteria and requirements before they decide if the website is worth buying over. And how would you know? The answers are in this module. Learn how to add massive value to your website or list of websites, and do it all with a small ounce of effort, time and cost on your part! Video 5 Online Places You Can Auction Your Sites This is it!
