

# Mp3 Disc Tools Series - Crowd Noise

[DOWNLOAD HERE](#)

this specialized producer cd contains over an hour of live crowd sounds to be used for movies or home recorded music made to sound live, or even for dj's to use to pump up the sounds of their venue; this disc can even be used for aspiring comedians to get 21 MP3 Songs ELECTRONIC: Soundscapes, ELECTRONIC: Ambient Details: this specialized crypticon release came from a vision for the necessity of a disc to contain pure streams of crowd noise. this would allow many different outlets once the dirty work of mixing and compiling the sounds was complete, and now the goal is basically to fake the ambience of the room with a crowd that doesn't exist! you can do it here, from a cocktail party you are trying to make sound livelier, to a 2,000 person party with the ambient backdrop of an even bigger crowd, this disc can help in so many ways from confidence boosting and even performance art pieces, as well as funnier uses like for aspiring comedians (or even to liven up your bedroom...)! this is a concept album that is really just a nicely focused sound effect toolkit. lively up yourself now...
