Details: Jimmi Accardi is a singer, songwriter, musician, and performer. As a teenager, he played backup guitar for such hit-makers as The Classics ("Till Then"), The Moonglows ("Sincerely"), The Belmonts ("Where or When"), and The Regents ("Barbara Ann"). Later he toured as the guitarist for Chubby Checker. Jimmi worked as a session guitarist for Rupert Holmes ("Escape" -the Pina Colada song) on the album entitled Rupert Holmes. He also recorded with Harry Nilsson. Jimmi's own group, The Laughing Dogs, enjoyed two critically acclaimed albums on Columbia Records (The Laughing Dogs and The Laughing Dogs Meet Their Makers) with original songs in the Billboard charts. Jimmi toured as lead guitarist for Mickey Dolenz and Davey Jones of The Monkees. He also was lead guitarist for the Eddy Dixon Band, and played with Evan Lurie (The Lounge Lizards). Jimmi's success with making hit records included working with producers Bruce Botnik and Eddie Kramer. Jimmi himself produced and engineered records for hit rap artists Scott LaRock and Boogie Down Productions, Ultra Magnetic, and KRS 1. On the Rockabilly Blues CD, Jimmi returns to his roots, with his vocals and lead guitar accompanied by his band The Wild Cats. Reviews: "Jimmi Accardi is no paint-by-numbers retro rocker. He obviously studied the rockabilly style with all of its nuances and subtleties, and turned out an album that stands up respectably to the original music. Jimmi evokes a much truer sound with his instrumentation and delivery than groups who cashed in on the rockabilly craze of the 80's (Stray Cats, Blasters, etc.). With the swing band revival well beyond saturation, Jimmi may lead the way for a rockabilly rebirth in the new millenium. . . . Overall, the album has that warm feeling of tube amps, reel-to-reel tape, and a small studio on the back streets of Memphis. Had the late Carl Perkins lived just a few more years to hear this, he would have undoubtedly embraced Jimmi Accardi as a kindred musical spirit." -- Steve Cagle, New Soul Revival "I wanted to let you know that I received the new Jimmi Accardi CD. It sounds fantastic! Not only does it demonstrate his skills as a performer, but I was amazed at his

writing talent. I will add the music to the station this weekend." -- Don Freeman, Rockabilly Radio "Jimmi has a great voice, he plays a mean guitar, and his band The Wild Cats are absolutely a rockin' band to reckon with. . . . I really dig Jimmi's uptempo blues licks." -- Marijn Raaijmakers, BlackCat Rockabilly Europe "Jimmi shows how skilled a guitarist he is. . . . A fine album." -- Gaby Maag-Bristol, Blue Suede News "Dette svinger som tusan! Vi fr 18 lter her og alle som en er originale skrevet av Jimmy Accardi selv, med litt hjelp av Margaret Foard. Det dreier seg i hovedsak om svingende rhythm and blues, men det er flere twangy instrumentaler som heller mer mot country her ogs. . . . Allerede som tenning hadde Jimmy spillt med legendariske grupper som The Classics ("Till Then"), The Moonglows ("Sincerely"), The Belmonts ("Where or When") og The Regents ("Barbara Ann"). Han har ogs turnert med Chubby Checker....og Mickey Dolenz og Davey Jones fra The Monkees. En haug med band har kallt seg Wildcats, men det stopper ikke backingbandet til Jimmy Accardi gjre det samme! . . . Jimmy Accardi er en dyktig gitarist, har en stemme som er flyelsmyk i det ene yeblikket og knuser sten i det neste. I tillegg er han ikke tapt bak en vegg som ltskriver heller. Det kan kanskje skorte litt p originaliteten, bde i gitarspillingen og ltskivingen, men det holder i massevis for meg ihvertfall. Produksjonen er moderne og kan kanskje i manges rer vre litt for "clean". Det lter ikke like rtt som p f.eks. Nick Currans skiver, som er naturlige sammenligne med. Synes ogs at man kunne gjort mer ut av coveret, men bortsett fra det var Jimmy Accardi er svrt hyggelig bekjentskap." - Arild Rnes, Rockboard Other Jimmi Accardi CDs: Rockin' Jumpin' cdbaby.com/cd/jimmiaccardi Songs of the Gold Rush cdbaby.com/cd/jimmiaccardi2
