A killer trio of power, and Gone Too Far is a collection of awesome blues-rock soul-pop funk songs for the ages. 11 MP3 Songs ROCK: Classic Rock, ROCK: Funk Rock Details: 28 NORTH MIKE LINDNER Vocals, bass, lead Guitar, songwriting and lyrics ALEX STANTON Lead guitar, bass, vocals, songwriting and lyrics TYLER BOND: Drums, vocals, songwriting lyrics 28 North is a band forged in the eternal molten heart of the steel city, Three new age warriors of rock and roll. They offer unheard worlds of rock, funk, blues, and americana, with a purpose thats simple and pure: bone crushing riffs, soul grabbing textures, timeless songs, and endless harmony. Alex Stanton and Mike Lindner where high school friends. Together they played in several bands and formed the seeds of a song writing collaborative. Afterwards Mike became a student of guitar at Duquesne University, and Alex went off to college in Vermont. At Duquesne Mike played with everyone he came in contact with and soon found himself in a rock trio that included drummer Tyler Bond. Bond, a native of cleveland, quickly saw the groups potential and left school to pursue it full time. Also seeing what was going on albeit from far away was Stanton, who left Vermont around the same time to return to pittsburgh and be a part of the band. The group played for a year as a foursome with an auxiliary guitarist, before breaking off to become a power trio. Although musicianship and live performance have always been important, song writing is the number one goal of 28 North. With each member being an active participant in the process, as well being an avid listener, critic, and fan of vastly different types of music, 28 North has built a deep catalog of compelling original material. While many of their songs work best in the guitar, bass, drums rock trio, the band loves to incorporate different arrangements, switch instruments, and write songs that work in any setting. With Stanton and Lindner's two unique guitar styles, and three distinct singing voices, the trio reaches a rarely seen level of versatility. Different songs open different doors and 28 North uses this to their advantage, the songs and voices tell the stories of the three characters, yet their harmony is the true voice of the band.
