Dreamflutes History: For 15 years she was teaching music at the public music school of Aichach and at the University of Augsburg. Many of her students won prizes at the German music competition "Jugend musiziert" (youth is playing music). In 1996 she moved to the island of Lanzarote, Canary Islands, Spain where she lived for six years. The beautiful landscapes of the island inspired her to compose music. She went to power places like caves and volcanoes and played her flute in meditation. You can listen to these pieces of music on her CDs. Her first CD *Improvisaciones de Dorothe* was composed on the island of Lanzarote. Dreamflute loves travelling and visiting foreign countries. She has been to Asia and Africa. Africa was magic to her. The Serengeti in Kenya is a paradise. So she composed several pieces inspired by the sound of Africa, the sounds of the wild animals. With her flute she imitates the voices of the animals. Africa is still in her heart. Asia inspired her a lot. Some of her compositions do have Asian flair. She loves the jungles with

the birds singing and tropical climate. She also loves Asian food and does Chinese cooking in her home. In Augsburg she taught Chinese Cooking classes. Her home island Lanzarote gave her much inspiration for her composing work. Titles like "Cueva", "El Mar", "Moonlight is shining over the Sea" are part of her life and the impressions and pictures are kept deep in her heart and in her mind forever. On Lanzarote she played classical music, Jazz, film- and musical melodies in hotels and restaurants together with her pianist Maribel Diport. She enjoyed this work very much. Also, she performed with the local band "Los Kiddies" playing Jazz at the beach bar in Arrieta. She loves easy going music, and improvisation is a great fun for her. Also she worked as a kinesiologist and did sound healings together with the overtone singer and psychologist Ursula Ulrich. Both of them organized meditations in caves and other natural places on the island. They went to the Fire Mountains to clear energies doing their healing sounds. Finally she realized her dream to play in the United States. Her first performance was at the conference of Unity FIUC in Fort Lauderdale at 2001 where she played with various musicians, among them Lauren Lane Powell who is a great singer known by many Unity Churches. One year later she was hired by the First Unity Church of Cordova in Memphis, Tennessee. There she met her pianist Isaac Thomas, a wonderful musician and composer with whom she performed for the church services and also for the lectures of healers and people of the Spiritual world like Michele Longo ODonnell from San Antonio. She performed the wonderful song "San Francis Prayer" by James Twyman accompanying the composer, singer and guitarist on her flute. One year later she and Isaac were hired to perform at the annual retreat of Michele Longo ODonnell at a beautiful farm at the country side of Texas, close to San Antonio. There she also got to know the singer Valorie Kay. Dreamflute enjoys accompanying singers. The sound of her flute is getting along very well with vocalists. Dreamflute and Valorie played together again on the Michele ODonnell retreat in Baden-Baden in Germany in 2006. Together with the musician Bill Webb she performed at a wonderful church service in Waco, Texas. The music was beautiful and heart opening. Dreamflute has translated both of the books written by Michele Longo ODonnell into German, together with her friend Heike Herrmann. She is a translator for Spiritual literature from English into German. She also works as a co- author writing books.
