Raucous, kickin', Celtic rock. 12 MP3 Songs ROCK: Hard Rock, FOLK: Power-folk Details: Clatterbone plays adrenalized Celtic rock featuring Highland bagpipes, guitar, bass, and drums. Clatterbone aims to create a fast-paced, energetic, original sound by combining the traditional Celtic genre with an unapologetically rock rhythm section. Clatterbone's first release, "With A Twisted Grin" is a hyper-energized collection of traditional and original material played hard and fast. KSER 90.7 FM's David MacFarlane said about Clatterbone: "ClatterBone is one of the best new Celtic rock groups I've heard" and "I have seen ClatterBone perform live several times, and each time they literally brought the house down! People were pounding the tables and stomping their feet, shouting, 'More, more!'"
