A cat located in Staten Island, NYC got some drums from his roommate who is a sound engineer in a studio in NYC. He said he got them from a Wu-Tang Killa Bee beatmaker that's affiliated to the allmighty Wu-Tang Clan. This cat wants to remain anonymous and we decided not to say where the drums come from. It can be anybody from 4th Disciple to Mathematics to Moongod Allah to True Master... The Hip Hop Workshop is proud to present: "Wu Tang Killa Drums" Drum samples that match (100) the beat production style of the Wu-Tang Killa Bees !!! This compilation contains: 313 Wu Tang Killa Bee Bass Drums 181 Wu Tang Killa Bee Snare Drums 199 Wu Tang Killa Bee HiHats

693 Wu Tang Killa Bee Drum Sounds!!! Download the preview of Wu Tang Killa Drums, start making a beat and you'll find your self hooked! Sample them on your ASR10, MPC2000XL, Emu SP1200 or MPC60 and match the Wu-Tang Killa Bee style of percussion! There are toy beatmakers out there that say they have 10,000 and 10,000 snares... In reality, established producers only use about 10 to 50 BDs, 10-50 SNs and so on... and they just recycle them and change their library maybe every other season or on every other project they be working on. I've seen this in studios... Beatmakers using only 10 BDs and 13 SNs and maybe 10HHs for a whole album... They just EQ them and compress them differently on each track... If you are experienced with equalization and compressing, then you know that from a single drum hit you can produce maybe up to 10 different and "worth keeping" variations of that sound only by EQing and compressing it. So, if you're into the Shaolin beatmaking style, this collection will last you for many many projects/records. Copy-Paste into another folder the drums you like and use most. Make other smaller drum kits out of these drums. By customizing this drum collection you will get familiar with the big amount of drums we present. We advise you to use the same kits you've created over and over for a period of time. This way you will get familiar with the enormous number of drums and you will have your own signature on the beats you make. Cos that's the key! Use the same sounds through a period of time and your style will be noticed in your hood, your city or the network you're about to build!!! Import them on your MV8000/MV8800, Phantom, MPC1000, MPC2500, MPC4000, HALion (VSTi) or any other hardware or software sampler and you

have crystal clear drums along with the thickness and crispiness of these drums!!! All are guaranteed to rock you. What are you waiting for? A pack of cigarettes cost more than 7 bucks!
