Ambient, expansive, far-reaching, progressive jazz fusion that doesn't shy away from the intimate and dives without hesitation into the adventurous. This is jazz fusion at its most expressive and colorful. 7 MP3 Songs JAZZ: Jazz Fusion, NEW AGE: Ambient Details: JD's 5th, and most extraordinary, recording brings yet another shift in his musical vision. While maintaining many of the "minimalist" elements of "Brief Light," the tuned percussion ostinatas, and multiple interlocking guitar parts, "Things Behind The Sun" offers a much jazzier element than any of his CDs. Featuring Tony Levin and Vinny Sabatino, "Things Behind The Sun" is Durant's most guitaristic recording to date, offering glimpses of chordal work never before heard on JDs records. In many pieces the customary cloud guitars have been replaced with layered voicings across intricate chord progressions that bring to mind such diverse influences as Eberhard Weber and Allan Holdsworth.
