NEW AGE: Healing, NEW AGE: Meditation Details: Following her groundbreaking work with crystal singing bowls, CRYSTAL VOICES pioneer and sound healer Deborah Van Dyke expands into the realm of divine chants and mantras with this transmission of remarkable beauty that will touch you profoundly as it transports you on a healing journey with sacred, intentional sound. Recorded live in her healing sanctuary, the essence of sacred ceremony is captured in this exceptional CD, awarded "Best of 2001 - New Age - Amazon.com". This CD (the companion to Deborah Van Dyke's definitive book on sound healing: "Travelling the Sacred Sound Current: Keys for Conscious Evolution") is a gathering of some of the most divine chants and healing mantras from throughout the ages which, along with crystal bowls, drums, gongs, didjeridoo, nature tones, and ancient vessels, provide a deep vibrational sound journey for inner attunement, healing and meditation. Sit back, relax, and be prepared to embark on an inner voyage of transformation with this sacred ceremonial music and Deborah's compelling, soulful vocals. You will be soothed and transported to a place of deep inner peace. As Deborah describes, "The vibratory nature of sound permeates our physical, emotional, mental and spiritual bodies. Sacred sound creates a field of frequency facilitating body-mind healing and access to higher fields of consciousness. The merging of a mantra's sound vibration with its meaning creates a vibrant power and blessing which is bestowed to both the chanter and the greater whole." This CD offers a sound vision quest for awakening, purification, and opening gateways of consciousness. Music created with a sacred healing intention - a frequency-shifting, soul-enriching experience. RECENT REVIEWS: "Following her remarkably beautiful and top-selling CRYSTAL VOICES CD's, heralded by critics, customers and even Dr. Wayne Dyer, sound healer and teacher Deborah Van Dyke presents Travelling the Sacred Sound Current, audio companion to her finely wrought book of the same name. Van Dyke's musical offering, used in conjunction with the book or as a

standalone tool, moves beyond relaxation and entertainment value into the realm of spiritual and therapeutic practice and purpose. Based on sound scientific principle, Van Dyke uses frequencies and tones to promote maximal benefit to body, mind and spirit. These nine pieces bring together ancient mantras and chants, crystal bowl tones, drums and didgeridoo, as well as nature sounds and Peruvian whistles, to create the thread-work of a profoundly interactive listening experience. Travelling the Sacred Sound Current resonates with deep beauty, peace and truth. Neither far afield in woo-woo content nor loftily academic, Van Dyke's work is a welcome invitation, likely to appeal to both the intensive meditation student and the casual or novice seeker." - Paige La Grone, Amazon Editorial Review "Sometimes in life when I'm faced with the experience of otherworldly beauty I am simply awestruck, - to the point of being left speechless. This is one of those moments. Deborah Van Dyke has created one of the most glorious New Age recordings I can remember. Crafted through the use of some very natural textures, its poetic rhythms are sensual and astonishingly pure. There is a complexity to the CD that is as unique as each human life. In just the first few breaths of listening I could feel the sweetest altering of my physical body taking place. A shift in posture, an expansion of my senses, and a fluttering of excitement in my heart's heart. The naturalness, the eloquent harmony and echo, all come together to offer such a tremendous gift to creation. For centering, grounding, gifting, doing healing work with others, Travelling the Sacred Sound Current intuitively knows the listener's need and exceeds that requirement with a universal gift of transformation". - PLANETLIGHTWORKER Magazine, Oct/03, Editor's review "Meditating to this soundtrack, the listener is able to experience the effects of sound on his/her mental status and physical well-being. Stress can melt away, and pain be diminished, as a shift in consciousness takes place. I highly recommend this CD to health care professionals, their patients and, indeed, anyone who wishes to pursue a healthy lifestyle." - Dr. Stephen M. Sagar, MD, Oncologist, Professor of Medicine, Founding Director of Complementary Medicine/Ontario Medical Association, Author "Restored Harmony" "Deep spiritual journey....this powerful CD is the ULTIMATE meditation experience; healing soundscapes on par with Dean Evenson, Steve Halpern." - ALL MUSIC GUIDE, Jim Brenholts "Deborah Van Dyke has expanded her sacred sound beyond the crystal voice into the human grounded voice that embodies the knowledge and power of the mantra. This is a well rounded CD in the realm of consciousness expansion incorporating contemporary soulful soundscapes, ancient sound seeds and visionary guided meditations. It is a golden plate of sound to suit anyone's exploration of the sacred sound current. It is also an

excellent companion to the book which has truly been blessed by the Mother! This book is rich with Her Beauty with the images contained therein and through Deborah's words and those of the Masters who have walked in the before. Not only has Deborah given a well rounded view of the journey of the Soul with the Sacred Sound Current, but she has created a vessel in which to reflect the manifestation of that sound with such exquisite colour! Combined with the journey of the actual sounds of the CD, the sensory travelling is complete. This book truly invites one into the current and allows the perspective from many angles of what it is to work consciously with sacred sound. Thus, it is a superb tool for not only inspiring people, but giving them ground level introduction into why they might venture into this powerful path of exploration. I love this book! - Janice Hualani Mark, Sound Healer, Inspirational Speaker, Toronto, Ontario "This very serene and exquisitely tuned album from Deborah Van Dyke is a sonic companion to her book. Though the book and CD are designed to be used together, the CD stands strong on its own merits as a beautiful recording. As she says, 'the nature of sound is nonlinear; a vibratory wave that penetrates deep into the transcendental field of the listener, far deeper than written words are able and thus the musical accompaniment'. Close your eyes and you will be in one of Deborah's Sound and Light concerts as these sacred mantras unfold on this CD." - BRANCHES OF LIGHT REVIEWS, Banyen Books Sound, Vancouver, BC "Deborah's Sacred Sound Current CD is nothing short of transformational. Upon listening to this CD I was entranced by the sacred energy that carried a divine essence of synthesis, balance and unity. Its healing quality is like none I have heard...the vibration, pure intention and quality is of the highest. I could feel ritual and ceremony imparted in each piece. When I was called to be officiant as an interfaith minister for a dear friend's husband's tragic death, I incorporated Deborah's CD, particularly the chants, into the service. The tenderly grieving, traditionally religious were touched and healed on many levels with Deborah's voice, chants, and healing vibrational sounds. The divine energies resounding her CD melted the crystallization of the moment's pain and brought light and beauty to the heart's of so many. Deborah's work is cutting edge, unadulterated illumined sound vibration - healing into wholeness those open to receive. With utmost respect for this gifted artist and healer, this is a must for all seekers of truth and for those beginning the great search. Deborah guides and facilitates one's journey to the core of being with grace and divine knowing. The beautiful framework of note, tone and vibration deepens the sojourner to "the Oneness of All That is". The angelic meter will bring clarity to your soul and compassion to your heart. Do not pass this one up. It is a gift to the soul of humankind." - Lee Ann
