

Drums 'n' Breaks Volume Three

Have you ever wondered how beatmakers/producers like DJ Premier, Muggs, RZA, The Alchemist or Kanye West come up with their drums? The secret is here! They find drum breaks and they just chop the Bass Drum, the Snare or the HiHats... That's why their drums sound almost like live drums but you know they made them on an MPC, SP or ASR.... So, as a bonus, the same work has been done for you here. We've chopped the BDs, SNs and HHs from these breaks, so you don't only pay for these 41 rare drum loops but for the single drums that come out of them as well. Dusted Breaks vol.3 Sampled from vinyl records. This compilation contains: 41 Dusted Drum Breaks 150 Dusted Bass Drums 97 Dusted Snare Drums 102 Dusted HiHats 396 Dusted Drum Sounds Download the preview of the Dusted Breaks vol.3 Correct me if I'm wrong, but this is a great offer especially for young beatmakers who are now collecting the drums that will follow their beatmaking path. CRATE DIGGING HAS NEVER BEEN SO EASY PLUS I will give away a tip for the young ones: There are toy beatmakers out there that say they have 10,000 and 10,000 snares... In reality, established producers only use about 10 to 50 BDs, 10-50 SNs and so on... and they just recycle them and change their library maybe every other season or on every other project they are working on. I've seen this in studios... Beatmakers using only 10 BDs and 13 SNs and maybe 10 HHs for a whole album... They just EQ them and compress them differently on each track... With this industry secret revealed and these vinyl drums you got all you need for many many projects/records. Copy-Paste into another folder the drums you like and use most. Make other smaller drum kits out of these drums. By customizing this drum collection you will get familiar with the big amount of drums we offer. We advise you to use the same kits you've created over and over for a period of time. This way you will get familiar with the enormous number of drums and you will have your own signature on the beats you make. Cos that's the key! Use the same sounds through a period of time and your style will be noticed in your hood, your city or the network you're about to build!!!
