Must be just a coincidence, I thought. It can't be this remarkable! " ".....After a day of listening to it, I started to feel a tingle. I thought maybe it's the vibration from the construction machinery near where I work. Walked around and it was indeed that. The strange part is, the vibration followed me home as I was listening to the frequency on the way back and the tingling sensation came back". "..When I play this, emotionally I 'feel' lucky... and have noticed that reasonable exposure seems to set my frame of mind to an expectation of good things will happen..." "...I started to noticed what seemed like

spontaneous rapid changes in my physical experiences with my environment in others, shortly after listening to the freqs. Some examples, - Finding parking spots in places and during times, that I NEVER come across for months and months at a time, and this happening quite a bit - Running into people I like quite a bit who I haven't seen in a long long time, or rather having people approach me in a really friendly manner, the place I live in, well the locals are not on average terribly pleasant people, and I'm not the only one to think this.... - Finding money on the ground, having bad luck take strange twists that turn out good some how.... "...a group I barely know offered me free use of an incredibly expensive piece of technology that should be quite instrumental in helping the healing process for my 'stuff' overall, AND they just gave me about \$300.00 worth of very rare very valuable medical research related documents." "...I think I have some "Good Luck" to report with the good luck frequencies. I won 8 dinners for two in AZ at some really nice restaurants. I was picked out of 6,500 entries. That's pretty good odds. " "...I've been hearing Good luck Evoker during the last week 50 minutes by day, 25 minutes in the morning, and 25 minutes before go to sleep. Apparent results= 5 new client, invitation to participate in a new research funded by a local NGO about forest floral remedies in a partnership with a local Indian tribe. interesting i was a bit tired of my daily routine and now im working almost full day!" "Hi Doc and group. just to tell you that after hearing a loop sequency of Super Succes, Harmony in Finances, attract good things, Good luck Evoker and money attractor during 4 days, like 2hours by day, i had the follow events in my life; increasing number of Astrology clients, 7 ex pupils from the university from where im retired, came to my house and asked me orientation regarding their last article to get the university degree what means a good extra money" "The shop has only been open for 16 months, and generally it's been touch and go to even stay open. There have been plenty of days when no one comes in at all. It has gotten a little better in the past 4 months; enough for me to squeak by. But yesterday I had several sales, and one customer bought quite a bit of merchandise. So it's possible that the Harmony frequencies are helping. I'll be curious to try them again, and see if this is consistent." "Hi, and thanks, doc! It made my day, made me much more positive and made me see possibilities, rather than obstacles. Good one! " "I had the same experience when looking at my own chart I saw good things challenges that I would savor overcoming to be victorious a bit dramatic, but that was the feeling J " "When Star Guy mentioned the super success frequency, the first thing came to my mind was that it might be related to the emotion you go through when you are so content of something you accomplished or did; something that is registered in your subconscious as a tangible

success indicator. But, now I think it is more than that. I think it attempts to trigger or stir your universal mind, which has always been present but covered since a long time with thick blankets of collective conscious!" "I have a feeling that this frequency works on the RIGHT BRAIN, which is responsible of imagination, feeling, symbols, philosophy and religion .. etc I've noticed that the background sound of this frequency goes directly to the right side of my head, and when the pressure or the throbbing starts, it starts there. " "I purchased the 'Super Success' and 'Money Attractor' frequencies and listened to them all day yesterday. Today, I received a call which will put me on the path to my dreams. Very impressed! "
