I had just moved myself and 2 children 1500km away from a small country town to a big city, I had to find a place to live, settle my children into their new schools and started a new full time job within 4 days and survive on a very small budget. After two weeks, we loved where we moved to, the kids were happy but unsure with buses and being home alone after school but I hated my new job but knew that I had to hang in to survive financially. My ego took a really bad beating from my new employers so when I saw the CD Wealthy Woman in the shop I brought it thinking that if I had money it would solve all my problems especially the fact that I could then be home for the kids. After listening to the CD I did think it was a bit strange that it did not mention abundance and money but was excited with the thought that soon money will be flowing abundantly into my life. I started listening to the CD on Wednesday, on Friday by mutual agreement I finish work and fell in a real hole, even though it was great to be home for the kids, my confidence and self-worth was at an all-time low and I couldn't stop thinking about all the hurtful things that had happened at work. Will I ever get

another job? Am I really that awful at my job and how will we survive financially! Approximately 6 weeks later my daughter noticed that the CD case said Wealthy Woman and the CD said Wonder Woman and then the penny dropped. It was a great moment. Looking back over that six week period it just dawned on me how much I have changed and grown. Within a week of finishing up at my job I had found new employment, over the next couple of weeks I was happy and confident, my self esteem was high and I was feeling good within myself. The hurtful ways I was treated from my former employer were no longer painful and making me feel worthless. I felt alive and ready to conquer anyone or anything that was thrown into my life. Even when my family commented on how different I looked and sounded when I spoke, it still didnt click that it was the Wonder Woman CDs influence in changing my thinking pattern. If I didnt notice the mix up with the CD I dont think I would have realised the significance of how powerful the Wonder Woman CD truly is and how the universe knew that what I needed most at this point in my life was this CD and its gifted teacher Jane Duncan. I am eagerly waiting to hear all of Janes CD and I sincerely recommend Wonder Woman to everyone who wants to free themselves from painful feeling and gain confidence and self-esteem. I went back to the shop and luckily for me they still had the Wealthy Woman CD so I brought and cant wait to start feeling the benefits that I know will start entering into my life. L. Ryan
