Details: Best described as "Cabaret PopRock" her dynamic influences are evident as Jessica continues to carve out her own unique brand of accessible, intelligent music with her brand new release "For Your Protection". Jessica grew up in Torontos Annex district with exposure to everything from skate punk to club dub.As a child, Jessica was an avid fan of the Dr Demento show and enjoyed dressing up like Laurie Anderson for Halloween and reciting Cheech and Chong skits. Inspired by her family's vinyl collection, Jessica could often be found lying under the stereo belting out along with Sam Cooke and Linda Ronstadt. By age ten, she knew all the words to the entire soundtrack of 'American Graffiti'. Jessica's music represents the moment you know things are going to get better. Todd Sanoy, Musician. Despite her secret desire to be stranded on a deserted island with Tom Waits, a piano and a case of Lagavulin, Jessica currently lives in Canada. Searches:jessica beach download
