The Crunk Drum Kit

[DOWNLOAD HERE](#)

The hottest of all the Crunk Drums have been collected from the original producers of the sound. Producers include: Lil Jon, Jermaine Dupree, DJ Toomp, DJ Smurf(Mr. Collipark) and Organizrd Noize. These sounds have all been meticulously edited and resampled through an SSL console. The snares and claps snap, the hats and crashes sizzle, and the kicks BOOM!!! Please don't confuse these drums with cheap imitations. These sounds come directly from the source. They come in wav format and will work with any DAW or hardware sampler. If you need them in a format that will work for an MPC 60 or an MPC 3000 please contact me and I will custom tailor your order.
