

Mp3 Boombox - Visions Of Backbeat

[DOWNLOAD HERE](#)

The debut album from BoomBox introduces their unique style of combining live sequencing manipulation with live vocals and guitar - Jamtronica - think house music meets jam band 8 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: Funk Details: With the release of Visions of Backbeat, the infectious, signature sound of Boombox reaches music lovers across the board, and delivers original soul back into the scene. This evolution in dance music is created by combining live instruments with turntables, multi-track sequencing and sampling groove boxes. All tracks are original compositions that are performed live by Russ Randolph and Zion Godchaux. Interfused with the elegance of Kim Hagen's circus theatre, Boombox is an improvisation of movement and sound.
