'LIQUID DRUM AND BASS' features some of the most original DnB Construction Kits ever produced! Blends Ambient Chillout Soundscapes with Punchy DnB Drums. It was recorded in 24-bit and all loops are 177 BPM. Includes 1.7GB+ of content in ACID, REX, REASON REFILL and WAV Formats. 'LIQUID DRUM AND BASS' is simply breathtaking. It features the styles found in modern liquid drum and bass melted with the classic washes and pads found in classic dnb. All loops are at 177 BPM but can easily be stretched for Breakbeat and other styles. FUTURE MUSIC REVIEW (January 2010): "With just five construction kits in the pack, Liquid Drum and Bass might seem like a small collection, but with 30-40 individual loops for each kit there's enough content here to make this one well worth checking out. All of the 24-bit samples aim for the higher end of the Drum 'n' Bass tempo range, clocking in at 177bpm, but Producer Loops have created samples which are versatile enough that they won't restrict D&B producers to Liquid. In fact, even producers of Breakbeat and Dubstep will find plenty here that could easily fit into their productions. Highly recommended." SPECIFICATIONS: - 1.7 GB+ Total Data - ACIDized Wave Files - Apple Loops/AIFF Files - REX2 Loops (Drumloops) - Reason Refill - Loops sync to BPM - 44.1 kHz / 24-Bit - PC/Mac Compatible - Royalty-Free (No Exceptions)
