"Are you sick & tired of trying to figure out all of the steps it takes to get things going online?" "Do You Want To Start Your Own Internet Business Without Having To Pull Out Your Hair Wondering HOW To Do It?" "It's Fast and Easy When You See Exactly How I Did It With My Step-By-Step Video Coaching Tutorials..." Dear Friend, Do you know that when you're starting out on an Internet business, you will come across A LOT of new challenges that are RARELY being told by most people? Step-by-step guides are a good way to start and that really cut down on your learning curves. However, Most marketing manuals teach you WHAT to do instead of showing you "How To Do" I have heard the same questions over and over again from many newbies on how to setup their online business. Things like... How do I register a domain name? What the heck is 'DNS' and how do I change them? How do I register a web hosting account and get my site set up? How do I install popups on my website? How can I let customers automatically download my product? How do I set up an autoresponder? How do I process my orders? How do I setup my order links? How can I upload files to my webpage? You simply cannot setup a business on the Internet without knowing these and other basics steps. So, I decided that I was going to put together a series of online videos to help newbies cut their learning curve drastically and eventually get their own Internet business up and running a whole lot faster and easier. After *literally* months of hard work, I finally manage to create a series of video tutorials successfully: 243 Minutes of Exclusive Video Tutorials In "Internet Marketing Basics Videos" you get a total of over four hours of exclusive coaching videos ... starting with the basics like registering a domian name, and going all the way through to tracking your Return Rate of Investment (R.O.I), branding your ebooks... and much more.
