Water drum and shaker. 6 MP3 Songs WORLD: Native American, NEW AGE: Healing Details: My brother and I are proud to sing these Ceremonial Peyote Songs for you and learn it if you like it. My name is Atrez M. Begay and my little brother is Byron M. Begay. Our clan is (Kinlichii'nii) Red House clan born for (Lok'aa'dine'e) Reed People. We're from Rock Point, Arizona. We gave a lot of thought about recording these songs because we respect it, but we wanted to share it with you and try to pass it on as they were passed on to us. We hope that you enjoy these prayer songs and use them wisely. These songs are appreciated songs, prayer songs, healing songs, and different season songs, all season songs, evening songs and happy occasion songs. In some of these peyote songs we address the Great Spirit, asking for blessing and calling for help. Some of the songs have their own meanings and some are just straight songs. It was told to us the peyote is a "divine herb". In the beginning the Great Spirit told his children, the Indian people, to call this plant a divine herb, divine medicine. The Great Spirit created this great plant in the beginning and put his divine healing in it, powers, richest blessings, spiritual movements, knowledge, love and comfort, and gave it to his children, the Indian people. He gave these things to his people so that they could glorify and communicate with him through mysterious ways of prayers and songs.
