NORD LEAD 3 MULTI SAMPLES PACK. INCLUDES OVER 2000 MULTI SAMPLES.

BASS,LEADS,PADS. Newly redesigned and vastly improved, Clavia gives us the Nord Lead 3. It is a 24-voice synthesizer (the NL2 is 16-voice) with many new features including many bigger knobs and controls. A new Unison mode is available that won't affect polyphony so that you can get some extremely thick and fat polyphonic sounds. A new and easier to use user interface with endless rotary knobs and LED graphs offer total and immediate control. The oscillator section has been completely redesigned. There are two separate oscillator groups, each providing you with six different waveforms, plus an additional built-in sync oscillator. A new type of synthesis akin to FM is also available called Sinus Modulation (SM). The Nord Lead 3 also features two high quality multi-mode filters with Low-, Band- and High-pass filtering. There's also Lowpass-Highpass and Lowpass-Lowpass filter modes and a Classic mode that emulates the characteristics of a classic analog filter. The Nord Lead 3 now offers up to 3 LFOs/Envelopes per voice plus Global Vibrato, syncable to MIDI clock. The Nord Lead 3 also has four separate Morph groups. The Morph function lets you continuously control defined ranges of up to 26 parameters in a sound, using only a single control source. This lets you produce radical changes to a sound in a very fast and easy way. There are four Morph groups available for each sound and you may assign up to 26 different parameters, distributed as you wish among the four Morph groups. The Morph groups are hardwired to one control source each: Velocity, Aftertouch, Modulation Wheel and Expression Pedal. And with the new Timbre function you can switch between two complete parameter setups in a sound. Also on-board are 4 individual audio outputs. Each MIDI part can be routed to a separate output or to two for stereo. The Software within the Nord Lead 3 can easily be upgraded via MIDI for future enhancements and upgrades. The Nord Lead 3 makes a great synth better than ever. A Nord Rack 3 is planned for release later this year. The Nord Lead 3 has already been used by Jean-Michel Jarre, Stereolab, Adrian Belew, the Faint, Keane, and the Pet Shop Boys. THESE SOUNDS WERE RECORDED AND INDIVIDUALLY PROCESSED BY PROFESSIONAL ENGINEERS USING PRO TOOLS FOR THE BEST SAMPLE QUALITY AVAILABLE. ALL SAMPLES ARE IN 44.1KHZ/16 BIT WAV
