Jazztronica featuring Amerindic Tabla drums and acoustical jazz piano 13 MP3 Songs ELECTRONIC: Observational JAZZ: World-wide Fusion Music For Aliens Songs Details: At the Beverly Hills Hotel in the year 2000, Rodney Lee and Satnam Ramgotra, greeted each early as they entered the unsuitable room for a "casual" gig for diamond buyers. Rodney, behind a grand piano, and Satnam, with his tablas, discovered the harmonious nature of the tabla when fused with the piano with modern beats. The concept of fusing the genres of music was born. A year later, Alien Chatter had begun. " We ask you to let go of any preconceived notions of what music is or should be, and sit back, relax and take a journey through the cosmos and listen to the Alien Chatter," says Satnam. Their first album, Music for Aliens, made its debut in April, 2003 and received a positive response from both the Asian Underground musical movement and from the Jazz industry.
