placed her ahead of E.Gorme, Patsy Cline, Brenda ***** Dear Betty, I received my

Volume One CD yesterday and can't tell you how excited I am. I was also surprised to find out how many

of the songs I recognized. The main song I wanted the CD for was "The Little Blue Man". I am curious to

know what inspired that particular song. I first heard "The Little Blue Man" at about the age of 10 years

and can remember my mother driving to a neighboring city in Alabama to get a copy of the record for me.

I drove my parents and four siblings crazy with singing the song. We were moving to across the states to

Texas, and with five children in a car, we were each only aloud to take one item with us. All the rest went

in the moving van (including the record player) so I am not sure why I insisted on taking the record in the

car. I placed it carefully in the back window so as not to break it. I checked on the record and found it

warped two days into the trip. Being a Military family, moving was never a problem, just a new adventure,

but this time turned tragic with the warping of the record. My mom said she would get me a new record

when we got settled, but shortly after moving both our parents were killed in a car accident. I never did

get another record, but never forgot the words of the song. For years I sang it to my own two children and

of course when the grandchildren came along, I sang it to them. I am anxious to visit my daughter and

take the CD with me in a couple of weeks. I'm not sure my daughter will see the joy in it, but my eight year

old granddaughter will be delighted. Thank you so much for getting back into releasing CD's. I am indeed

greatful for the memories that you have stirred in me. Thanks again, Janet
