New York Hardcore, but with meaning behind it - not about being "stabbed in the back." 14 hard-hitting songs in 12 minutes covering political divisions, same-sex marriage, terrorism, life and record collecting. PLUS 11 live songs from 1990. 25 MP3 Songs ROCK: Punk, ROCK: Hard Rock Details: GO! was around from 1989 to 1991, and we're back! We recorded this new "Reactive" CD at Don Fury's in NYC in July, 2006. GO! was about an awful lot, but we were so fucking sarcastic that I think it made it all alright. We were anti- all the bad stuff - racism, sexism, homophobia, violence at shows - and pro- all the good stuff: low-priced all-ages shows, equality for women, equal rights and respect for gay and lesbian people, essentially having respect for other people in general. Plus we had serious ditties like "Milk does your body good" and "The A-Train." And we kinda rocked out, too - so there you have it. We toured the US in 1990 and Europe in 1991, and played a bunch of shows in the NY and surrounding areas. It was great playing with so many cool bands and meeting so many great people. Some of us were sXe on and off (I still am), Jim and I are both vegetarian and I'm the only gay one. GO! put out a fuck of a lot of records, which are of course all out of print, although we have some copies of our comp CD/LP "Existence" available and it's about to be repressed by our label Epistrophy (in Germany).
