Edgy, witty and heart-felt conglomeration of indie-rock and folk music styles that leaves listeners wanting to hear it all over again. 13 MP3 Songs ROCK: Folk Rock, FOLK: Angry Details: On his disc, Bad Chords, Mark Willer reunites drumming legend Bun E. Carlos and bass player Jon Brant to bring you one of the most flavorful albums of 2007. Willer delves into many musical styles on Bad Chords from songs like Pointy Shoes and Cigarettes, a devious and paranoid jazz piece that contemplates modern democracy--to Some Of Us, a sexy Cuban number that searches to find everybody's secrets--to What's The Matter Sleepyhead, a song that wakes the listener up to find an unshakable rhythm with poetic resonance. Bad Chords outmeasures Dirt Filled Glass in that the listener is more easily drawn into the feelings of the songs, and can identify to the stories Willer has to tell. This is a CD that everyone should own and wear out!
