

Mp3 Griff Steel - Franks Pyjamas

[DOWNLOAD HERE](#)

A mixed bag of musical styles. 12 MP3 Songs ROCK: Classic Rock, ROCK: Glam Details: Franks Pyjamas?? A strange title I know! Basically all the songs recorded here (with considerably more help from my friends than I ever expected) are songs I love. I make no excuses for including several songs from the Bryan Ferry/ Roxy Music catalogue either (If anyone in South Wales wanted to form a Roxy/Ferry tribute band???). The songs range from stuff I heard in my early childhood right up to stuff like Fix you that I heard recently. There are a range of styles on the album ranging from Glam Rock to Country to New wave. The opening song on the album Strangers Today was penned by myself and my good friend John Regan. The album is a complete departure from my previous recording with Rock n Roll/Jump Jive outfit The Duck And Dive Five (Also available from CD baby). You cannot do the lindy hop to any of these songs (though Id like to see you try LOL). If you don't like the whole album you can in a short while from now download the one(s) you like to your ipod from Apple or many of the other digital distribution companys. Oh Just before I go Frank is the name of my pet cat.
