Mp3 Sones De Mexico Ensemble - Esta Tierra Es Tuya (this Land Is Your Land)

[DOWNLOAD HERE](#)

An immigrant's musical manifesto: this Chicago-based ensemble is rooted in Mexican 'son' and plays all-original arrangements: traditional and experimental, from true-to-tradition huapangos and son jarocho to new hybrids of rock, classical and folk. 17 MP3 Songs WORLD: World Traditions, LATIN: Rock en Espanol Details: This CD includes twelve original, all-acoustic arrangements (and five connecting interludes with an impressionistic collage of spoken interviews) that range from the traditional to the experimental, including, as its title track, a norteo version of Woodie Guthries classic American folk song, sung mostly in Spanish. A song once inspired by the plight of Great Plains farmers exiled in California during the 1930s Dust Bowl Depression Era, This Land Is Your Land remains relevant today and speaks to Americas national debate over immigration. This CD includes folk songs from various regions of Mexico played on over 50 authentic Mexican folk instruments meticulously recorded in high-fidelity stereo. The songs include La Presumida, La Rabia, Jarabe Planeco, La Llorona, La Mariposa, Tabasco Suite, and Los Panaderos. The CD also features Eres Bella Flor, an original composition by Music Director Vctor Pichardo written in a chilena style from Mexicos Southwest, and Yo Vendo Unos Ojos Negros, a Chilean folk song played to an Afro-Mexican rhythm, a tribute to a historic migration of South American blacks to Mexico in the 1850s. The ensembles experimental forays take them into baroque music with J.S. Bachs Brandenburg Concerto No. 3, Second Movement in G-major played with son jarocho instruments and a brass quintet led by CSO trumpet player John Hagstrom. They also venture into the realm of hard rock with a cover of Led Zeppelins Four Sticks, an unusual piece in 5/8 time that Sones de Mxico Ensemble performs as an energetic Aztec dance. The CD includes a booklet with song lyrics and a guide to over 50 musical instruments used to make this recording.
