With the Nord Lead 3 Clavia takes Virtual Analog to the next level and introduces the Advanced Subtractive Performance Synthesizer. Advanced Subtractive because of the extremely flexible sound engine, featuring a combination of traditional shapable waveforms and a very intuitive 2 or 4 operator FM engine. All this can be routed through the top quality multi filter for further shaping. 'Performance Synthesizer' because of its unsurpassed user interface and play control functions such as keyboard hold, parallel polyphonic glide in legato mode, single-key triggering of whole chords and even clusters of slightly detuned voices for super-unison effects. Nord Lead sounds have been heard throughout your favorite club hits from producers such as Timbaland, Lil Jon, Polow Da Don, Swizz Beatz and more. Make hits just like them! This package contains 2,202 Samples which will load onto any sampler/audio application that allows the use of WAV files such as Reason, Fruity Loops Direct Wave, and MPC's.These samples were taken straight from a Nord Module. These sounds were recorded and designed by professional engineers using Pro Tools for the best sample quality available. These samples have been processed with Waves processing tools and SSL compressors for more impact and presence in your musical creations. Many drum libraries tend to have overused fx, have digital distortion and lack clarity as well as the natural sounds that some of our favorite producers have come to rely on to make hit after hit. Our samples are are carefully picked, recorded, and fully analyzed to ensure that they are clear of any faults and have more live sounding feel which is credited to the drum sets, sound modules, and samplers which are widely used by award winning producers. You will notice the difference once you apply these sounds to your musical works and you will not regret it.
