This is the real deal people. This is the most official Triton Refill on the market. We know that has been said before then when you buy the refill the sounds are muddy, damp, over compressed and have a hell of an echo/release.That may be the case with them but this is us, as usual beat-makerz quality. This is by far the most ambitious and biggest project we took on and the file size proves it.This is the real deal Triton Refill ready for use on Reason 3.0 & up and comes fully equipped with over 1,000 patches that have been fine tuned, equalized, perfectly arranged, and sustained. You hit the key it will not stop after 5 seconds in fact it won't stop.This is much better then downloading thousand of WAV files that sound like someone fell asleep on the keys.This refill gives the same results as the official $1,300 keyboard. Why spend the money on the keyboard when all you really want are the sounds on board.The Triton has become a valuable asset to some of the biggest producers in the game right now such as The Neptunes.Now purchase this kit, get the instant download and let the hit making begin fellow beat-makerz!!! No doubt about it. This is the Triton with attitude. The aggressive new Triton Extreme is bursting at the seams with more of everything that has made the Triton family the workstation of choice for tens of thousands of performers, producers and musicians the world over. Software Compatibility Propellerheads Reason 3.0 & up These sounds were recorded and designed by professional engineers using Pro Tools for the best sample quality available. These samples have been processed with Waves processing tools and SSL compressors for more impact and presence in your musical creations. Many drum libraries tend to have overused fx, have digital distortion and lack clarity as well as the natural sounds that some of our favorite producers have come to use. Our samples are are carefully picked, recorded, and fully analyzed to ensure that they are clear of these faults and have more live sounding feel which is credited to the drum sets, sound modules, and samplers which are widely used by award winning producers. You will notice the difference once you apply these sounds to your musical works and you will not regret it. If there is a producer's drum kits that is not listed and you are interested in, feel free to let me know and we will see what can be done to accommodate your request. Be sure to look out for our other official kits such as: Motif Drum Kits West Coast Drum Kits Fantom Drum Kits Nord Lead
