Mp3 Orquesta Alto Maiz - Ritmo En Azul

[DOWNLOAD HERE](#)

Hot 12 piece latin/jazz group from the midwest that mixes classic salsa, cha-cha-cha, samba, latin/jazz, calypso and many other styles. Energetic and great for dancing and/or listening. 8 MP3 Songs LATIN: Salsa, LATIN: Afro-Cuban Details: Orquesta Alto Maiz is something of a musical enigma. It is a popular eleven-piece Latin-jazz-dance band made up of musicians now living in the "heartland" of America. The Latin tinged music they perform, usually found in the clubs of New York City, L.A. or Miami, has secured them a reputation as one of the hottest bands in the Midwest. This strange mix of "salsa" and tall corn works because of the years of musical experience the band members bring to the group, and because of their love for the music. Alto Maiz has been performing regionally and internationally since 1986 and have steadily built a strong base of Latin music fans and supporters wherever they've played. Orquesta Alto Maiz plays a wide range of Latin musical styles, including merengue, samba, cha-cha-cha, salsa, calypso, and boleros. In addition to Latin-jazz standards by Tito Puente, Ray Barretto, Eddie Palmieri, Ismael Miranda, Mario Bauz, Poncho Sanchez and other, the band has produced many successful original compositions as well. Alto Maiz has recorded much of this music, producing two cassette tapes; Puerto de Tierra (1989), Casa del Fuego (1991), and five compact discs; Dancing in the Corn (1993), Azucar Caliente (1995), Dcada (1997), Live at Montreux (1999), Aejando (2001), and their latest, Ritmo en Azul. Regardless of age group or musical preferences, Orquesta Alto Maiz strikes a common chord with its audience. Once exposed to this vibrant, pulsating music, people find it so irresistible their feet won't keep still! Audience participation (dancing, singing) is encouraged. And remember, dancing is good for you and dancing like no one is watching is even better. Once you experience them you will never forget them, Orquesta Alto Maiz, "The Salsa Band".
