

Mp3 Sterling - Brave New World

[DOWNLOAD HERE](#)

Hypnotic, atmospheric journey into a world where emotion breathes and emptiness subsides... 16 MP3 Songs

ELECTRONIC: Trance Details: Since 1995, STERLING has been producing some of the most innovative music within the electronic genre. Through a seamless integration of trance, ambience, and breakbeats; he has created a progressive style that is uniquely his own. A style that is represented by intensely emotive work dealing with themes such as loneliness, faith, and transcendence. In STERLING's mind, it goes beyond music. He is struggling to create the soundtrack to a new reality, teeming with so much hope and possibility. With the debut release of the self-titled "STERLING" (1997), he was finally able to begin sharing his vision with others. Though only 18 when much of it was completed, it became evident that he contained a great deal of maturity within his music. Songs such as "TRANSCENDENTAL" and "ALONE" exhibit such depth and perception, it is hard to imagine them being the product of a teenage mind. But they were and STERLING had arrived. Four years later, STERLING's second release "BRAVE NEW WORLD" (2001) came upon us. It was born out of STERLING's deep concern for the current state of the world. In essence, it is a concept album envisioning the destruction and rebirth of Earth. Obviously, there is more at play here than simply dance music. 2002 marked the launch of STERLING's own production company, TRANSAMBIENT PRODUCTIONS. This company mainly serves as an independent record label for the artist himself, though it may include others in the future. In 2004, STERLING returned once with a new project entitled "LUCID DRIVE". This time around, he attempted a collaborative effort with fellow producer Rick Santacrose and lyricist/vocalist Kellie Lobaugh. This project was well received and has even caught the attention of Resident Euphoria-Live DJ Darren James in the UK. Referring to STERLING/LUCID DRIVE music as "left of field ambient breaks with trance overtones blended into a lush and deep soundscape of emotion and pulse", Darren remixed 5 songs from the project. Though the project was successful, STERLING ultimately decided to go back to creating alone. So here we are now. STERLING is busy working on his next album, which promises to be his strongest effort to date. His passion and abilities continue to intensify in all directions. He will rise again...
