Jermaine Dupri Mauldin was born in Asheville, North Carolina. He grew up in the College Park community of Atlanta, Georgia. His father is Michael Mauldin, a former president of Columbia Records. Dupri was introduced to the music business at the early age of 6 months by his father, a concert promoter and manager of rap and R&B groups. He dropped his last name as a teenager and started out as a breakdancer for artists such as Diana Ross and Cameo. At the age of eighteen, Dupri became the youngest charting producer in the history of music,[citation needed] with his first chart selling artists being Kris Kross. When he got more familiar with the business, Jermaine produced hits for platinum artists such as TLC, Monica, Jay-Z, Ludacris, Bow Wow, Da Brat, Usher, Chante Moore, Destiny's Child and also helped get Mariah Carey back on top with the top selling album of 2005, The Emancipation of Mimi. These sounds were recorded and designed by professional engineers using Pro Tools for the best sample quality available. These samples have been processed with Waves processing tools and SSL compressors for more impact and presence in your musical creations. Many drum libraries tend to have overused fx, have digital distortion and lack clarity as well as the natural sounds that some of our favorite producers have come to rely on to make hit after hit. Our samples are carefully picked, recorded, and fully analyzed to ensure that they are clear of any faults and have more live sounding feel which is credited to the drum sets, sound modules, and samplers which are widely used by award winning producers. You will notice the difference once you apply these sounds to your musical works and you will not regret it. This product is delivered digitally, so once the purchase is made you can get to making your hits immediately afterwards! Not only does this give the product as fast as your internet connection can provide, but it also saves you \$money\$ on shipping and handling charges. A broadband connection is recommended for this purchase to ensure delivery in a timely matter. Kit includes 135 studio quality one shot audio samples which includes kicks, snares, hats, percussion, claps and snaps.
