A Collection of traditional Philippine Folk Dances conducted by Juan Silos Jr. and his Rondalla 10 MP3 Songs in this album (32:43) ! Related styles: WORLD: World Traditions Details: However great the impact of modern dance tempos in the world of music today, the Rondalla, with its unique native instruments, viz: laud, octavina , banduria, piccolo, tambol, bajo de unias, gitara, and mandola, producing wave upon wave of exciting and wonderfully fresh sound- remains closest to the Filipinos heart. It is his first love and always greets the Rondalla with a galvanic standing ovation Whenever it appears in its thousand and one fiesta and other civic or cultural activity each year. In this album, the seventh in a series of Philippine Folk Dances, the repertoire is similar to those of the successful previous albums. The Rondalla under the astute direction of eminent composer and arranger Juan Silos Jr. gives an equally great performance as if they were playing before a teeming crowd of music lovers at a festival. We reiterate our sincere wish, as in our past productions of Folk Dances, that this Cd will bring you incalculable pleasure and in no small measure add more listening delight to the precious moments youll spend with our very own folk dances.
