The knees, bones, teeth, skin, joints, hair, parathyroids, right side of the body. But then it gets REALLY messy;

As the full moon was conjuncting my own natal Saturn, I just naturally reached for them. Benefits: Clearer thinking, reduced fatigue, able to follow patterns, generating structure and working within it, much greater focus.

I am playing the Saturn and FinVit freqs (FinVit is a real boost now with Jupiter and Uranus conjoined in transit and their entrance into Aries after Pisces. I hope Doc you won't mind me sharing a good article about this Mercury Retrograde period and its much larger significance to us all. Just good info we all can use:

the_sound_of_stars@yahoogroups.com Received: Wednesday, November 26, 2008, 6:57 AM This is interesting...you know, last week I was running the saturn-tracks, and nr.3 especially. And the first Amethyst some..and then I got going on this new music-track of mine that I posted about yesterday... I started out with this calm, powerful feeling, and got into a lot of problems, that I solved... Im usually to impatient to endure such an amount of resistance without giving up..and get side-tracked. I got a very strong physical reaction at once from the first in the series, over the scalp and neck.. all the new ones do that to some extent. Zangsta J_S --- On Tue, 11/25/08, Kat King
